EDUCATION

Bsc Information Technology, Ls Raheja College of Arts and Commerce   2021 - Present
CGPA : 7.73   Mumbai, India

HSC - XII th, St Andrews College   2019 - 2021
Percentage : 86   Mumbai, India

SKILLS

Programming Languages	Java, SQL, JavaScript, Python
Databases	MongoDB, MySQL
Web Technologies	HTML, CSS, Material UI, React.js, Node.js, Angular
Tools	Git, Github, Postman, Canva, MS Office, Bootstrap

PROJECTS

SNR Jewels — React.js, Tailwind CSS, Material UI, JavaScript, Node.js, MongoDB

- Built a jewelry e-commerce app using React.js, Tailwind CSS, and MongoDB with responsive UI and secure checkout.
- Added product filters, real-time cart, and fast UX for improved performance and engagement.
- Developed scalable RESTful APIs and modular components optimized for cross-device support.

SchoolMonitor — React.js, Material UI, Redux, Node.js, Express.js, MongoDB

- Built a full-stack school management platform enabling efficient admin, teacher, and student roles.
- Developed modules for attendance tracking, grade management, and real-time communication.
- Designed intuitive dashboards and secured user authentication using role-based access control.

WalletTracker — Node.js, Express.js, Chart.js, React, MongoDB, React-Datepicker

- Created WalletTracker, an intuitive and user-friendly expense tracker designed to optimize cash flow management.
- Enabled users to seamlessly add, retrieve, and delete income and expenses, streamlining financial transactions.
- Constructed insightful and effective charts to visualize financial data, enhancing user decision-making.

Fake News Detector — HTML, CSS, JavaScript

- Developed a web-based Fake News Detector using HTML, CSS, and JavaScript to identify and flag misleading news articles.
- Implemented intuitive UI for users to input text and receive real-time analysis based on predefined heuristics and keyword matching.
- Focused on responsive design and fast processing to enhance user accessibility and experience across devices.

EXPERIENCE

KK Classes and Communication   Jan 2025 - June 2025
Full Stack Developer   *Santacruz, Mumbai*

- Achieved efficient web performance by developing responsive full-stack features using React.js, Node.js, Express.js, and MongoDB.
- Led the creation of a role-based dashboard for admin, teachers, and students with secure login functionality.
- Developed and deployed RESTful APIs and dynamic UI components on Vercel for real-time data management.

ACHIEVEMENTS AND CERTIFICATIONS

- **Programming Logic Building** (C++, Python) • **Web Development with Bootstrap** • **Ethical Hacking Fundamentals**

LEADERSHIP AND EXTRA-CURRICULAR ACTIVITIES

- **Head of Department – Information Technology Intra-College Tech Fest** : Led team to 1st place among 15 in IT Fest by organizing and executing departmental activities.
- **Team Leader – IT Mentorship Program** : Guided a team of 5 to conduct sessions on programming, web development, and career guidance for juniors.
